Draft as was re-typed with the following Exhibit notes and has been endorsed on the B 22/14 record

92 22/4/14

Application dated the 16th February 1914 from Mr N Narasimhaiengar B A praying that the Damodar Das - Scholarship granted to him may be extended for a further period of one year from 1st November 1914

- - - - - - - -

Submitted to the Dewan of Mysore with reference to his orders dated the 17th March 1914

2 Mr N Narasimhaiengar was granted Damodar Das Scholarship of the value of £ 200 per annum to study Electrical - Engineering in England for a period of two years (after one year's local training)- vide Government Proceedings No 3010 //Edn 297-08-50 dated the 24th September 1909 But, on the recommendation of Mr Gibbs the then Chief Electrical Engineer Mr Narasimhaiengar was permitted to study in the Union College at - - Schenectady New York instead of in England - vide Government Order dated the 8th September 1910 |

3 In Proceedings No 6908-10/Edn 216-11-2 dated the 23rd March 1912 Government were pleased to extend the scholarship of £ 200 per annum for another two years from 1st November 1912 to enable Mr Narasimhaiengar to complete his studies in Electrical Engineering and

Slip C

Slip D

Slip E

file put up Flag S

and undergo a year's practical course in the General Electric Company's - - Works in New York His term will be over by the 31st October 1914

4 In the application under submission Mr Narasimhaiengar represents that the period of four years during which he has been permitted to stay in America is far too short for one to complete both the theoretical and practical courses much less to specialize in any one branch of Electrical Engineering, and therefore prays that the scholarship granted to him may be extended for a further period of one year or as an alternative that the requisite amount may be advanced to him and recovered after his return to India

5 The Chief Electrical Engineer to whom the question was referred for opinion recommends in his letter No 200 dated the 21st April 1914, that the - scholarship may be extended for one more year, provided that the student spends the time in the General Electric - Company's Workshop and that the wages paid to him by that Company are deducted from the amount of his scholarship

The conditions under which the scholarship is recommended to be continued to the student for another year from the 1st November 1914 seem fair

fair as if the wages earned by the student in the General Electric Company's Workshop which may come to Rs 105 or so be credited to Government the - scholarship of £ 200 will be reduced to £ 116 Moreover the student may not also be denied the opportunity offered by the Union College for post-graduate work

6 In the above circumstances I should recommend the continuance of the scholarship for a further period of one year on the conditions named by - Mr Beames

Offg Secretary to Government
